AM: SPORTS PROGRAMS

Sports are a great way for children to enjoy getting much needed exercise, they can teach children valuable life skills also needed to be successful in life.

The Sport Program has the intensity of an annual program adapted to shorter weekly periods. Students will concentrate on the same sport or one sport every week, enabling them to make large strides in a short time, unlike the case with a multi-sport program.

Students may choose one of the following sports during their whole stay or one sport every week:

- Golf
- Horse Riding
- Football (by Real Madrid FC)
- Water Sports
- Tennis
- Paddle
- Dance – Fitness

- Daily Sports (2:30 hrs: 10:00 – 12:30)
- Students will enroll in this course at different levels according to their level and their age.

PM: LANGUAGE & TRAINING PROGRAMS

(Spanish & English Programs)

Every program, both academic and non-academic, is led by native, bilingual, highly-qualified and professional teachers. The students will enroll in any of these two courses at different levels according to their knowledge of the language and their age. The level of each student will be determined by a language test on the first day.

1. LEARNING LANGUAGES THROUGH ACTION

With our methodology they will learn new contents and skills that are essential to their personal and social development, as they learn, absorb expressions and vocabulary in another language. Providing a more natural learning environment than the classroom, they will practice another language within a context, in a fun and different way.

2. INTENSIVE SPANISH LESSONS

We endeavor to completely immerse students in the Spanish language, providing 3 hours a day classroom study plus many opportunities outside of the classroom to socialize and take part in activities, gaining confidence and fluency as they interact with other language speakers.
The teaching system that we use is centered on a communicative approach and includes diverse didactic methods: grammar, speaking, listening, vocabulary pronunciation, oral and written competence.
